

Squirrels Homework

Dear parents/carers,

Welcome to a new school year and class structure! We are starting the year with the topic “Land Ahoy” which is all about pirates, navigation and the world.

During the course of this term I will be sending out weekly homework. This will be a piece of English and Math each week and a single larger optional piece of topic homework which will be due the end of term – chosen from a list sent out. This Maths will be online from the website Mathletics (a separate letter is included for instructions of how to use the website.)

We are introducing homework folders for the English homework, which go home each week and returned once homework is complete.

Weekly homework will be set every Friday and completed by the following Wednesday. If there are

any comments or questions, please don't hesitate to
get in touch.

Kind regards,

Jo Wilson
