

## Governor Monitoring 2019-2020

Our Governors contribute to ensuring high standards of achievement for all children in the school by:

- Setting the school's vision, ethos and strategic direction.
- Holding the headteacher to account for the educational performance of the school and its pupils.
- Overseeing the financial performance of the school and making sure its money is well spent.

Governors fulfil their role by regularly attending Governing Body meetings and Sub-Committee meetings, providing strategic guidance and by asking probing and challenging questions of leaders within the school. They also undertake visits, serve on relevant committees and oversee the Headteacher's performance management.

A key part of the role of a Governor is to carry out monitoring activities. We receive a lot of information from The Head Teacher in the form of reports and briefings but in order to substantiate all of this information, we also carry out visits to the school to see for ourselves the progress the children are making or that the school and pupils are safe and that policies and regulations are being followed.
