Shortlist 3 worries for your child to tackle!

To help build confidence, you'll need to shortlist 3 worries that are relevant to your child, practical to do and easy.

Your child will then be able to choose the worry they would like to work on!

The game will break their chosen worry down into smaller challenges to help them face their worries and learn that they can cope.

The first few challenges happen in the game (imagine, draw, photos, and videos) and then progress to real life challenges that will need your support.
