

Date 23/01/17

Name Amelia

My favourite activity was making the pancakes. This is because I really enjoyed ~~being~~ being able to do lots of "hands-on" activities. I also enjoyed ~~to~~ seeing if we could split one of the grains in half to see where the flour we eat comes from. But the best thing of all was eating the pancakes, they were delicious!

From these activities I learned that in a few years tractors might be able to drive themselves, and that all about different meat products you might get from a pig! I loved learning all about metre squares and how ~~many~~ ^{many amounts of} sun, water and seeds you need to grow meat!

Today was so much fun I can't wait till next time!

Thank you so much for coming to our school to teach us about the field to fork topic.

From Amelia (and all of Foxes)
